

# Technology for the Choral Music Classroom

NJ ACDA, July 29, 2015

Marjorie LoPresti - East Brunswick High School  
marjorielopresti@gmail.com

## Why do I need technology? I teach singing!

- Communication
- Instruction & practice
- Assessment

## Recording: pick a strategy that will work for you as a routine

- Handheld “field” recorder (Zoom, Tascam, Sony--SD card storage & AC adapter)
- Laptop/Tablet recording.....you’ll need a decent microphone or two  
and software or a good app  
USB mics are OK for classroom recording  
Condenser mics for concert quality
- Online recording, i.e. Chromebook (can’t quite recommend this yet)

## Websites, etc: a place for your ‘stuff’ that students and parents can access

- School/classroom website
- DIY: Wiki, Weebly or Google Sites
- Soundcloud/YouTube

## Communication: get the word out!

- Remind
- Twitter
- Instagram
- Websites/email

## Instruction:

- Student response journals-Google Docs/Forms, TodaysMeet
- Assessment tools: Sight Reading Factory
- Practice tools: SmartMusic, PracticeFirst
- Question & quiz tools: EdPuzzle, Kahoot, Socrative
- Curricular tools: CPDL, The Singing Classroom, Quaver

## Organization:

- Google docs/drive, Evernote
- Planning & management (iDoceo)
- Score readers (forScore)
